Cloud Computing

- Cloud-based infrastructure services delivered from centralized data centers.
- Including Private Clouds, Public Clouds, Edge Clouds and a spectrum in between.
- Driven by 'cloud native' innovations, but also cost, agility and security benefits.
- Security benefits only come with planning and work.

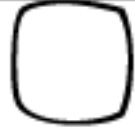

cover:
 [What is a cloud? Availability | Cloud Security](#)

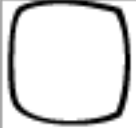

Done right, cloud computing reduces cost and increases security and functionality.

Sample Presentation Script to Recruit Teams

"Hi, my name is __ (name)_____ and I am the volunteer Team Development Chair for the Arthritis Foundation's Arthritis Walk. I thank you for allowing me to talk to you about this very special event. Our goal is to raise \$__(amount)___ and see over _(#)___ folks walk with us at _(location)_____ on _(date)___ to help fight arthritis.

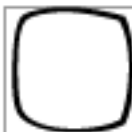

You can help us by forming a team from this company or from your family and friends and joining us on _(date)_. Your team will help bring researchers closer to a cure for arthritis and support the 50 million American adults and 300,000 children currently suffering from arthritis. It also enables the Arthritis Foundation to continue its
